The interesting thing is that the components for the original Aeon's End aren't as good! That's what's in the Update Pack: better cards. The breath in our lungs. Aeon's End: War Eternal Inside the Kickstarter's Edition of Aeon's End: War Eternal So, after enjoying the original game, I broke out the second game (War Eternal). Better everything. Wow! Intro Games Intro Game Sheet for Aeon's End One of the things both games get right is the very first game you play. There is a sheet that shows you how to play your introductory game! The cards are even all divided up into A, B, and C piles. Update Box to update the cards from the original Aeon's End to better cards! When I got the War Eternal in the mail, I also got the update box. It basically updates all the cards from the original game. I guess some people complained about the original art design from Aeon's End, and the manufacturer responded and updated the art. You can see above the changes. They seem all in the name of making the cards easier to read and use in the game. The original cards are physically "darker" than the new update cards. The font on the update cards is bigger (except for the theme text on the bottom is MUCH smaller, but that doesn't effect normal gameplay: it just adds theme if you want to read the cards). And the picture is bigger because they got rid of the black borders. It has no effect. But the hook here: NO SHUFFLING! When you discard cards into your discard, you can (with a small set of rules) discard the cards in any order you want. So, when your main deck runs out of cards, you simply move your discard deck to the deck AND DON'T SHUFFLE! I have to admit, this was probably one of the best things about this game! I liked Dominion, but the constant shuffling really detracted from liking the game: I remember waiting and waiting for other players because they had to shuffle on their turn to get their cards (especially once you got an engine going). In Aeon's End/War Eternal, you just flip your deck and keep drawing! Much less slowdown! And you can "choose the order" of your discard (mostly) at the end of your turn so usually you can do that at the end of your turn and not hold up the next player. It really felt like much less slowdown! Components The components for Aeon's End: War Eternal are first rate. There is a counter for the bad guys, the boards for the bad guy and the player characters are very readable and usable. Everything really pops. The game works really well as a solo game: I had fun and only had to play one character. There is a lot going on, and I imagine playing with multiple characters would have made my first playthrough much less enjoyable. That player may prep up to two spells to each of their opened breaches this turn. Crooked Mask Nemesis Cards: Prince of Gluttons 5 Prince of Gluttons devours cards from the supply, draining away important options from the players. It was created by Kevin Riley with Action Phase Games and published through Indie Boards & Cards. Xaxos Flare Activate During Any Player's Main Phase: Allies collectively gain 4 charges. View source 305 Cards 87 Gem Cards (7 Sets) 86 Spell Cards (14 Sets) 30 Relic Cards (6 Sets) 75 Nemesis Cards 27 Randomizer Cards File: Aeon's End Rulebook.pdf Aeon's End is the first game from a series of Aeon's End products, and is often referred to as the Core or Base set. I went ahead and backed that as well. I am a bit of a completionist, so I figured I get this as well. Even though I haven't played the original. Brama Buried Light Activate During Your Main Phase: Any player gains 4 life. Turn Order Cards are significantly improved! All cards were updated from the update pack! Fourth: And probably the most important, *ALL* the cards were updated. A lot of cards! There are a lot of cards in the update pack! In general, the War Eternal seems to have better components and cards. Us, Gravehold, and The Nameless - creatures seeking to snatch what little we have left from our group. Crooked Mask uses a special Corruption deck that places corruption cards into players' decks, slowing them down. Any damage that the players or Gravehold would suffer during that turn. Nemesis: Nemesis Difficulty Description Rageborne 2 Rageborne is a simple nemesis focused on dealing damage to Gravehold and the breach mages. First game: All the packs are set-up for you The game is all prepared for you and very easy to set-up for the first game. Given how many cards there are in this box (see pictures above and below), this is a very good step. In fact, I will stand up and applaud this! I was up and playing within 30 minutes. Second: the boards aren't shiny! The character boards were shiny in the original edition, and it made them harder to read. The newer version also seems a lot easier to read: the graphic design just feels better. I feel like I can read Indira's card (bottom: War Eternal) better than Malastar (top: Aeon's End). Everyone I played with enjoyed the game. They all want to play a game. This is probably the biggest hit at the game table in some time. And it sat the unopened. For almost a year. *Cough* Kickstarter Edition of Aeon's End: War Eternal In Mark 2017, the sequel/follow on to Aeon's End came up on Kickstarter: Aeon's End: War Eternal. Contents Overview Mages: Adelheim, Brama, Jian, Kadir, Lash, Mist, Phaedraxa, Xaxos Nemesis: Rageborne, Carapace Queen, Crooked Mask, Prince of Gluttons Mage Cards Starter Cards: Crystal, Spark, Amethyst Shard, Buried Light, Moonstone Shard, Emerald Shard, Quartz Shard, Garnet Shard, Tourmaline Shard, Flare Gems (7): Jade, Sifter's Pearl, Vriswood Amber, Diamond Cluster, Searing Ruby, Burning Opal, Clouded Sapphire Spells (14): Phoenix Flame, Spectral Echo, Amplify Vision, Ignite, Lava Tendril, Dark Fire, Essence Theft, Feral

Lightning, Oblivion Swell, Chaos Arc, Planar Arc, Arcane Nexus, Consuming Void Relics (6); Flexing Dagger, Bottled Vortex, Unstable Prism, Blasting Staff, Focusing Orb, Mage's Talisman Other Nemesis Cards: 22 basic nemesis cards, 53 nemesis cards Tokens: 30 1-life tokens, 10 5-life tokens, 21 charge tokens, 10 power tokens, 15 nemesis tokens, 4 player number tokens Misc: 16 breaches, 9 turn order cards, 2 life dials, 4 player aid cards, 27 randomizer cards Breach Mages Mage Starter Card Ability Adelleim Amethyst Shard Activate During The Nemesis Draw Phase: When a nemesis attack or power card is drawn but before it is resolved, you may discard it. The one thing that was very overwhelming was building the big bad's event deck at the start of the game. It's quite involved with three levels of danger (1,2,3) and you to mix and match basic cards with specialty cards. It's the one part of the game that seemed to drag; everyone had to wait for me to build the bad guy's deck. Other than that, the game flowed well. Deckbuilder But Not a Deckbuilder! So, if you've played Dominion, you'll get the basics of this quickly. But there is a lot more to the game. There's a notion spells, a notion of breaches to be focused so you can cast multiple spells, each character has a special power that has to be charged up, and there's a big bad that has events and does bad stuff to everyone! It's a cooperative deck builder, but it's much more than that. And yet, it didn't feel too overwhelming. That already happened. Why did I wait so long to pull this out? The breach mages wield this power with undeniable ambition: to survive, to take back The World That Was, to protect our home." — Nerva, Gravehold survivor Trivia Original First Edition Kickstarter Edition of Aeon's End So, about a year ago (November 2016), I received the Kickstarter edition of Aeon's End. Kadir Emerald Shard Activate During Any Player's Main Phase:That player may return up to three spells in their discard pile to their hand. Top: character card from Aeon's End. If Prince of Gluttons in given enough time and empties the supply completely, the players lose. Mist Garnet Shard Activate During Your Main Phase:Any ally draws 4 cards. Left: Card from the original edition of Aeon's End. Right: Card from the Update Pack. *Cough* Kickstarter Edition of Aeon's End and Aeon's End: War Eternal (with update since I was an original Kickstarter) Since I was a Kickstarter on the original game, I received an Update Pack for the original game. What's in it? I didn't know. I hadn't been following too closely, but I will reveal its contents below! Well, not directly below. We'll reveal its contents below HERE ... Aeon's End The inside of Aeon's End (Original Kickstarter Edition) Box I finally, just a few weeks ago, busted out Aeon's End (first) and played it (by myself and with some friends). And you know what? It was good! I like it as a solo game, and my friends really enjoyed it as a cooperative game. Similarly, the character boards for the bad guy monsters. Ragehorn is shiny and a little harder to read. A 2nd edition released in 2018, which updated most of the graphic design on the cards and playmats. Lash Quartz Shard Activate During Any Player's Main Phase:Shuffle any player's turn order card into the turn order deck. Reveal the turn order deck and return the revealed cards in any order. Update Pack: What's in the Box? I thought the original cards were fine (in fact, we played with them a few times). But, I do admit: the new update cards look nicer and are easier to play with. That player suffers 1 damage. Bottom: character card from War Eternal. A finished solo game, I won! Theme and Cooperation Theme and COOPERATION This game is a great cooperative game. It moves quickly, and everyone was helping each other out. In the beginning of the game, most people built their decks separately without consulting each other too much (and in fact, we ran out of diamonds because too many people tried to get that Gem). But, but the middle of the game, we were making decisions together! "Do I kill the minion first or take out the power?" "Can I use my special spell?" "Can you help charge me for my special spell?" "Can you heal me?" "Who should take the damage from the event?" And in the end game, the game slowed quite a bit as every decision became important to winning the game. But not in a bad way! We were all so invested in the game, we talked! We discussed! It kind of reminded me of a basketball game ... stay with me here ... the last minutes of a basketball game takes forever, but it's the most exciting part of the game! The same can be said of Aeon's End/War Eternal! That last few turns because very exciting as we make choices. For generations we have taken refuge in an ancient and haunted place, one whose first purpose was forgotten for a thousand ages, until our exodus once again filled its empty halls and hovels with our shadows. At the time of this writing, a second edition of Aeon's End is coming, which is supposed to update the quality of the game to the same level as War Eternal. The Core Set was first released through Kickstarter in November 2016 and had a retail release in September 2017. Jian Moonstone Shard Activate During Your Main Phase:Cast any player's prepped spell without discarding it.Then cast that prepped spell again. Solo Game Solo Player Set-up The solo play game works well. You can play with just one character and learn the game. My only complaint was that the solo rules were relegated to the back page (both the Aeon's End and War Eternal rulebooks). Since my first play of most games is almost always a solo play, I wish those would be addressed up front. But it's a minor quibble. Learn From Mistakes They really did up their game for the components in War Eternal. It really looks like the manufacturer listened to their customers and fixed up a lot of things in the game. They learned from their mistakes. Conclusion I shouldn't have waited so long to open and play these games! They were fun! I even ordered an expansion (The Depths) on CoolStuffnc before I realized I already had it in the original edition of the Kickstarter! (It was hidden in the box ... that I didn't open for a year). Luckily, CoolStuffnc let me cancel that particular piece. Carapace Queen Nemesis Cards: Crooked Mask 5 Crooked Mask is a nemesis of disease and pestilence. Left: Bad Guy from Original Edition of Aeon's End. Right: Bad guy from War Eternal. Everything feels like it fits in the box better. Prince of Gluttons Nemesis Cards: Supply Card Gallery Aeon's End (Core Set) comes with 27 sets of supply cards Gems (7) Spells (14) Relics (6) Basic Nemesis Cards Aeon's End (Core Set) comes with 22 basic nemesis cards: 7 powers cards, 9 attack cards, and 6 minions. The Aeon's End All content shown here is from the 2nd edition. This is what's left. The weak light in our eyes.

Gautama Buddha (also Siddhārtha Gautama or (Pali) Siddhattha Gotama; Shakyamuni or (Pali) Sakkamuni, and The Buddha) was an ascetic and spiritual teacher of South Asia who lived during the latter half of the first millennium BCE. He was the founder of Buddhism and is revered by Buddhists as an Enlightened being whose teachings sought a path to freedom from ignorance, ...
